Our Students – Showing their Love

Shreya Butta  recommends Ivy Professional School. ...

October 8 · 🌐

Ivy is a great place to learn Data Science skills. Personal attention is provided and the content that is taught is very helpful .

Comment as Ivy Professional School

Chetan Ingle  recommends Ivy Professional School. ...

September 14 · 🌐

Class is very professional and skill orientation. They take personal care like flexibility of time. Content which is taught is relevant and practical.

Comment as Ivy Professional School

Sanjana Das Burman  recommends Ivy Professional School. ...

April 1 · 👥

Ivy Professional School is an amazing platform to kickstart your career in the field of Data Analytics. It's a stepping stone for freshers to form the building blocks towards their foundation in Data Analytics.

With the help of industry experts and professionals, Ivy provides an ambience which allows individuals to thrive in this domain.

Their one-to-one sessions, online classes, doubt clearing classes, assessments, and regular weekly assignments do help us in gaining interest in the modules and helps us in obtaining better and rigorous insight for each and every course module. The faculty members are extremely dedicated and hard-working which motivates students to give in their best.

must say, I made the right decision by opting classes in Ivy. Best teaching staff is the top most point. What a dedication, I second that!! without any background knowledge of data Analytics, I feel so confident about the subjects. I strongly recommend Ivy professional school.

 **Tanwi Swaika** reviewed Ivy Professional School – ★★★★★ 12 June 2018 · 🌐

Unsure about analytics, the journey was made easier with Ivy. From scratch to advanced level, learning couldn't have been better without the cooperative trainers at Ivy.
The exposure received during my stay has helped me transform to a more confident candidate for analytics.
It is just not only a place to impart knowledge but a also a place to ace up your career, a place that ensures long term association with it's students.
Appreciate being a part of Ivy!

Rishi Mukherjee recommends Ivy Professional School.

30 March · 🌐

I would recommend due to case study practice are industry based curriculum and tutor professor r very skilled professional.. even the other people r working very good. it has connected with service based MNCs.. mostly.. Ivy gives us opportunity to enhance and specially how to crack interview.... mock test.. mock interview resume building everything... i would recommend each n every person who wants to make a career in Analytics field.. actually I preferred the course and referred 2 associates and enrolled for it...

Excellent support from the teaching faculty and staffs. Both online and offline classes are interactive and helps in terms of query resolution. Course curriculum is well defined and will push you to aspire your desired career.

Will definitely recommend.

17 August 2017 · 🌐

My friend suggested me Ivy and I am glad he didn't suggest me anything else. The atmosphere at Ivy brings in with it a boost in confidence apart from the best in class training.

 **Debasreeta Roy** reviewed Ivy Professional School – 5★ 19 November 2015 · 🌐

Ivy professionals is the best analytics school known. With astonishingly talented and remarkable teachers, Ivy is inept in teaching, making students understand and comprehend the subject, take proper assessments to judge the real aptitude of students and help them to get better in it. In one word, it is excellent from all dimensions. If you want a profile in analytics, then Ivy is no doubt the best shot. Move towards your brightest future with Ivy to form your first and most stable step in the ladder of your career path!!

IVY Pro. is one of the best learning institute I have been associated with in my entire career, from course outlining to project end, it is very much well designed for freshers and experience professionals both the aspirants.

Strongly recommended learning institute in terms of specially weekend classes, industry experienced faculties, Webinar on latest industry trends and life long access to class materials along with videos of classes.

I would love to continue to learn with the IVY team in near future as well, Much Appreciated !

Our Mentors

Prateek Agrawal

The founder and Director of Ivy Professional School. He has got several years of exposure in global business practices related to Consulting, Analytics, & e-business domains.

He meritoriously earned his Masters' in Management of Information Systems from the esteemed Texas A and M University in the US

Prakhar Gupta

The co-founder of Adorithm a state-of-the-art Artificial Intelligence and Machine Learning based startup, along with B.Tech from IIT Delhi. He had donned various hats of a business advisor, Analyst, Consultant etc. utilizing his statistics and analytics knowledge and expertise for various global business clients

Eeshani Agrawal

The Director of Ivy Knowledge Services, bringing over 7 seven years of Project Management expertise.
She had earlier directed the Client Relations for Ivy Professional School. Eeshani holds an MS in Civil Engineering from Texas A and M University in the US.

Raju Kumar Mishra

A consultant and corporate trainer for Data Analytics, Machine Learning and Deep Learning. Authoring two books on Data Structures and on Big Data already, he was a proud achiever of the Motorola medal for being the best graduate student of IISc 2010.

Our Students Vouch for Us

HR Head, End to
End Logistics
Solution firm

“The training program conducted by Ivy Professional School for managers of TM International Logistics Limited has received extremely positive feedback from the participants. The content and subject coverage had encompassed almost everything essential to help them discharge their functions more efficiently in terms of time optimization and accuracy. The visual aids and reference material has been very effective in illustrating the concepts . The individual guidance and hands-on practice for every topic allowed the participants to clarify their doubts and internalize the usage of the functions. We would like to thank you for this very practical and impactful session and hope to be able to continue with the engagement in the future.”

Sr. Associate, a
leading consulting
company

“I liked about the program the way additional aspects which were not initially under the scope were handled; practice items; incorporation of feedback and facilitation.”

Consultant, a
leading technology
and outsourcing
company

“You have got a very good course content, presentation style and class coordination. I’m very much benefited by this workshop.”

A close-up, slightly blurred photograph of a laptop screen. The screen shows a dashboard with a line graph at the top and a pie chart below it. The line graph has a blue line with markers, showing an upward trend with some fluctuations. The pie chart is mostly blue with a small green slice. A text box is overlaid on the left side of the screen. The laptop keyboard is visible at the bottom right.
